PROFILE

B.E. Civil Engineering graduate with Singapore airport operations experience, transitioning into a first QA Automation role. Built practical Playwright and TypeScript projects for UI workflows, REST APIs, and authentication. Seeking a junior QA opportunity.

TECHNICAL SKILLS

Playwright, TypeScript, JavaScript basics, UI testing, REST API testing, functional testing, positive and negative testing, authentication and authorization testing, Page Object Model (POM), cross-browser testing, assertions, test data, Git, GitHub, GitHub Actions, Jenkins, Node.js.

QA AUTOMATION PROJECTS

Authentication and Authorization | Playwright, TypeScript

Built tests for valid and invalid login, empty credentials, logout, protected page access, and authorization. 33 test scenarios passed across Chromium, Firefox, and WebKit; CI with GitHub Actions and Jenkins.

Airline Booking | Playwright, TypeScript

Built positive and negative UI tests for flight search and selection, passenger details, payment, and booking confirmation. Used POM, cross-browser testing, and GitHub Actions CI.

Banking API | Playwright, TypeScript

Tested GET requests, status codes, JSON responses, account details, pagination, negative cases, and response metadata. GitHub Actions CI.

E-commerce | Playwright, TypeScript

Tested product search and selection, cart, quantity, and checkout, including basic data-driven tests. Used POM, cross-browser testing, and GitHub Actions CI.

Food Delivery | Playwright, TypeScript

Tested login and invalid login, pizza and size selection, cart, checkout, payment methods, and business rules. Used POM, positive and negative cases, and GitHub Actions CI.

WORK EXPERIENCE

[Official Job Title] | [Airport / Company Name], Singapore

[Month Year]-Present | Airport and baggage-handling role; non-QA experience.

- [Add a concise, factual airport or baggage-handling duty.]
- [Add a second factual duty, if applicable.]

EDUCATION

B.E. Civil Engineering | Anna University, India

Completed 2017
